

Asbury Methodist Village increases patient satisfaction with GeriMenu

About Asbury Methodist Village

Asbury Methodist Village is one of seven 501(c)(3) nonprofit organizations supported by Asbury Services, Inc. Located in Montgomery County, Maryland, Asbury Methodist is an accredited continuing care retirement community that has been a vibrant part of the local area for over seventy-five years.

Asbury Methodist Quick Facts

- 74 villas
- Over 700 spacious apartments
- 133 assisted-living suites
- 285 licensed nursing care accommodations
- Adult day care, outpatient rehabilitation, and physician services

Trusted Service Since 1991

Asbury Methodist Village has been using GeriMenu® resident meal planning and food service software since 1991. Today it serves over 250 residents in its skilled nursing facility with

the latest software and upgrades. Asbury Methodist has both GeriMenu modules, allowing staff to

- Produce resident-specific tray tickets based on menus and residents' preferences
- Simplify serving lines with sanitary, single-use tray tickets and snack/nourishment labels
- Print accurate production tally and prep/pull sheets for the kitchen staff
- Scale recipes for each meal based on resident selections
- Calculate all meal costs
- Print selective menus or use the optional Palm handheld organizer to record choices right in the residents' rooms

According to Asbury managers, GeriMenu tray tickets offer Asbury Methodist more-reliable production numbers, and the concrete meal tickets eliminate the need for interpretation. GeriMenu software is also extremely helpful in Asbury Methodist's preparation of monthly billing for nourishments and supplements.

More Choices with GeriMenu

Asbury Methodist Village prides itself on its flexibility and the number of choices that residents have in all areas of life. From living arrangements to activities at the state-of-the-art Wellness Center, individual differences are recognized and celebrated. Asbury Methodist understands that offering choices not only dramatically increases satisfaction but also supports the interests and enthusiasm of residents.

With GeriMenu software, Asbury Methodist provides residents with even more personal options. Residents can choose what they'd like for meals shortly before having them, instead of being required to eat from a predetermined plan. GeriMenu can even print alternative menus for residents with specific dietary needs, making it easy to avoid allergies and restrictions. With GeriMenu, all residents at Asbury Methodist get what they prefer while their well-being is ensured.

Asbury Utilizes Additional CBORD Systems

Asbury Methodist Village also uses the Odyssey PCS™ cashless system from CBORD® to allow residents to use their ID cards to pay for dining services, gift store selections, beauty salon services, and door access.

Still Satisfied After All These Years

GeriMenu continues to provide the benefits, results, and customer service on which CBORD prides itself. As Asbury Services, Inc., continues to grow and add new locations, Asbury Methodist Village helps train the facilities to use GeriMenu software. GeriMenu is now being used at six Asbury Services locations, including Asbury Methodist Village, Bethany Village and Towers, Epworth Manor, Inverness Village, Reeders Memorial Home, and the Springhill/ForestView Community.
